Short description of the Heritage, (preferably within 350 words)

Although Beillar Nachari is basically a dance performed on a song, it is part of a folk theatrical performance presented in a dialogic manner. In the case of dialogue projection, it follows the genre of 'Jatra' with its own characteristic variations. Beillar Nachari is performed in almost all upazilas of Kalihati, Ghatail, Sakhipur, TangailSadar, Bhuapur, Mirzapur, Gopalpur, Madhupur, Delduar, Nagarpur in Tangail district of Bangladesh. Artists perform regularly seven-eight times a year. There are more or less 13 different teams in Kushtia district which practice this form of dance. These

performances are in fact efficacious, performative rituals executed against a manot or pledge, by a householder to appease Manasa in the hope of getting a boon from her, in the form of 'good health' for the household, or to overcome other such minor household woes and obstacles. Importantly, the ritual is participated by both Hindus and Muslims from marginalized communities. In Beillar Nachari, men dress up as women and participate in the performance. In many cases, hijras take part in female roles. One important character and one minor character can play multiple roles. The actors memorize the dialogues and are dependent on a literate 'prompter'. However, most of the other artists are non-literate. Behula, Lakkhindar and Padmadevi are the three most important characters in Beillar Nachari. Handsome teenagers between fifteen and twenty years of age are selected for these roles. They excel in dance, song and dialogue. The head of the musical chorus is known as 'Ostad', 'Ojha', 'Bayati' etc. Fifteen to twenty-five artists are required to form a troupe of Beillar Nachari. Two character artists stand at the four corners of the stage ar, and perform bandanas or songs. Many times during the performance of bandana, the main singer, or gayen, takes a position within the group of dohar (chorus) musicians. After the performance of the bandana song, the master comes on the stage and starts narrating the story. The narrative begins with the story of the birth of Goddess Padma. This song is performed till midnight.

Modes of transmission to others in the community

All these songs are being practiced from generation to generation / Guru Shishya tradition. But nowadays the new generation does not show interest in joining this practice. The performers have been learning this art form from their ancestors. There was no written document before. Now the work has slowly begun. Usually people of the community learn this art by observing and following their elders and as they become experienced and mature enough they start to perform. Everyone is allowed to witness the performance.
